DIVERSITY OF NATIONALITIES

There are many ways to measure the diversity of nationalities in a place. That is why I took 3 different steps to have a better approach to diversity.

Let's start with the 10 Districts of BCN. If you look for the District with the highest % of immigrants, the gap between the first and the second is very significant.

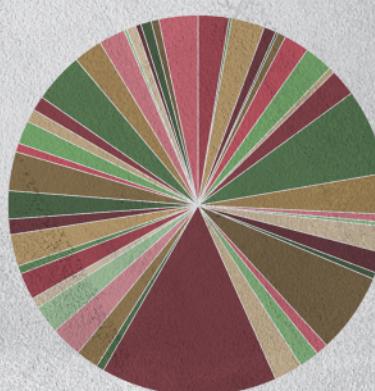

Then, if you take all the neighborhoods and look at the % of immigrants, the first four are all part of the District with the most immigrants, Ciutat Vella.

DIVERSITY OF NATIONALITIES

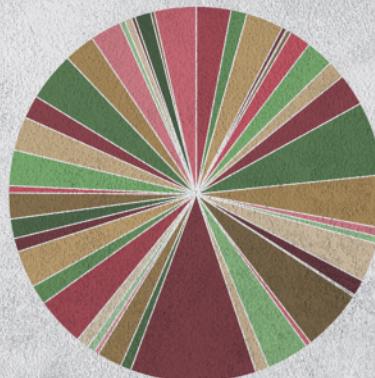

But I'm still thinking about diversity, so I did a comparison across all neighborhoods and i compared the % of each nationality / all the people in the neighborhood. I saw a few neighborhoods that contain almost all the nationalities of migrants in Barcelona, so I calculated the median and filtered the 10 neighborhood with the highest median. I was still not satisfied, so I calculated the % of each nationality / migrant population, and i calculated the median again. The 5 highest medians coincide with the 10 previous neighborhoods, but I only selected 3 of them, because they are the neighborhoods that do not have a higher concentration of a certain nationality or 0% of a nationality.

WOMEN CONCENTRATION

The firsts 5 nationalities with the highest concentration of women are Honduras, Paraguay, Russia, Poland, and El Salvador.

On the other hand, if we think about the biggest quantity of women we are talking about Italy, China, France, Honduras and Morocco.

If we look for the major concentration of men they are from Senegal, Pakistan, India, Bangladesh and Argelia. And the biggest quantity of men are Italy, China, France, Morocco - coinciding with women - and Pakistan

WHO IS THE TARGET?

ACCORDING TO AGE THE LARGEST POPULATION OF INMIGRANT IS BETWEEN 25 AND 35
THE LARGEST POPULATION OF WOMEN IS IN THE SAME RANGE OF AGE, WHICH IS THE LOWEST GAP BETWEEN INMIGRANTS AND SPANISH.

THE GAP BETWEEN WOMEN, ACCORDING TO DISTRICTS, ALSO DECREASES IN THE AGE BETWEEN 25 AND 35

THAT'S WHY OUR TARGET IS THIS PARTICULAR GROUP AND ITS INTEGRATION

THE PROBLEM BEYOND MIGRATING

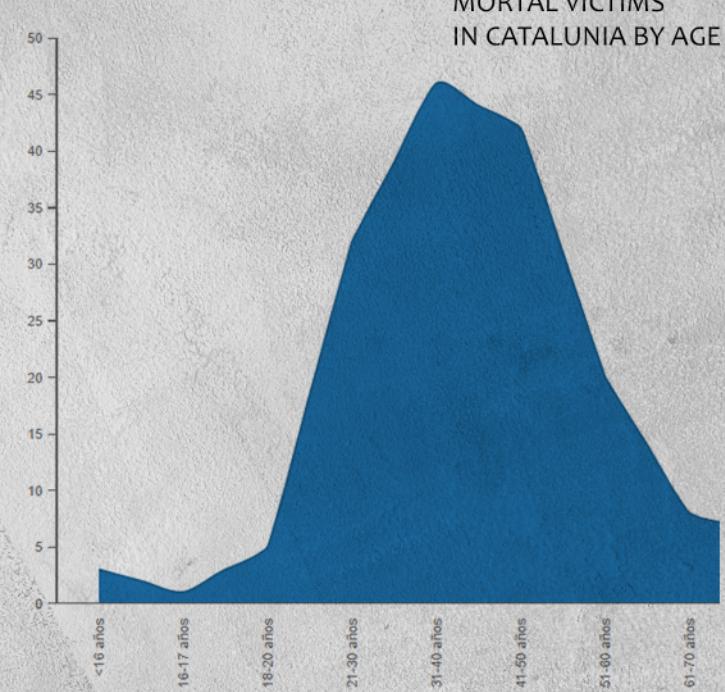

ACCORDING TO A DOCUMENT PRESENTED BY AIETI IN FEBRUARY 2019
BEFORE THE MONITORING COMMISSION OF THE PACT ON GENDER VIOLENCE

32% OF THE WOMEN MURDERED
BY GENDER-BASED VIOLENCE
WERE FOREIGNERS

THESE MURDERS AFFECTED

30 WOMEN
FOR EVERY MILLION
OF FOREIGN WOMEN

5 WOMEN
FOR EVERY MILLION
OF SPANISH WOMEN

BUT DO NOT FALL INTO STEREOTYPES, OR INTO
THINKING THAT VIOLENCE IS AN ETHNIC PROBLEM

66.7%
OF THE AGGRESSORS
WERE SPANISH

24% SPANISH MURDERED
WOMEN HAD MADE A
COMPLAINT

29% MIGRANTS MURDERED
WOMEN HAD MADE A
COMPLAINT

THAT MEANS THAT THE MIGRANT WOMEN
WHO DENOUNCED ARE MORE UNPROTECTED

DESPITE THE HIGH RATE OF COMPLAINTS, THE HIGH RATE OF DEATHS OR THE HIGH
NUMBER OF RESTRICTION ORDERS

FINANCIAL AID HAS
ONLY BENEFITED **8%**
OF FOREIGNERS

THE ROAD TO INTEGRATION

THERE ARE MANY PROJECTS RUNNING AT THE MOMENT TRYING TO SOLVE THIS PROBLEM, SO THERE ARE ALREADY MANY EXPERIENCES IN THE FIELD.

THEREFORE THE CHOICE IS TO USE SPORTS AS A TOOL FOR INTEGRATION, EMPOWERMENT AND CREATION OF NETWORKS FOR IMMIGRANT WOMEN

HOW IS THE POPULATION THAT PRACTICE FEWER SPORTS ACTIVITIES?

WHY ARE THEY NOT PRACTICING SPORTS?

The main 3 reasons for women to not practicing sports are: they don't have time (50,7%), they have health reasons (32,8%) and they get tired of work/study (28,1%).

THE ROAD TO INTEGRATION

THE PROPOSAL IS FOCUSED ON MIGRANT WOMEN BETWEEN 25-35, THE IDEA IS TO GENERATE NETWORKS THROUGH SPORTS.

WOMEN WHO PRACTICE SPORT MOSTLY DO IT ALONE.

THE PROPOSAL IS NOT FOCUSED ON DOING SPORTS, IT IS FOCUSED ON GENERATING A PROGRAM PROVIDE SPACES TO TEAM SPORTS WHOSE MAIN TARGET ARE WOMEN WHO LOSE THEIR SUPPORT NETWORKS.

IN GENERAL, WE MUST TARGET DISTRICTS LIKE EIXAMPLE, THE DISTRICT WITH MORE MIGRANT WOMEN, HORTA, ONE OF THE DISTRICTS WHERE LESS SPORT IS PRACTICED, AND LES CORTS, SPORTS ARE NOT PRACTICED AS MUCH AS IN OTHER DISTRICTS AND IT IS ONE OF THE DISTRICTS WITH MOST WOMEN.

MIGRATING AND LOSING YOUR SUPPORT NETWORKS PUTS YOU IN A SITUATION OF VUNERABILITY, BOTH MENTAL AND EMOTIONAL, NOT ONLY OF POTENTIAL VIOLENCE EXERTED BY A PARTNER, BUT ALSO VIOLENCE AT WORK AND VIOLATION OF RIGHTS.

THAT IS WHY WE WANT TO GENERATE A SPACE WHERE WOMEN CONNECT WITH OTHER WOMEN, AND THROUGH THEM, WITH BARCELONA ITSELF, THEIR NEW HOME.

Sporting opportunities can only realise their potential to integrate effectively and sustainably when they function in a gender-oriented manner. This can be achieved by implementing choices aimed only at women, giving them special consideration to their needs and demands.

The statement that inclusion in and through sport is about participation in the host society and in their own ethnic community, and indeed with the aim of gaining social acceptance in differing areas of both societies, applies particularly to women with a migrant background.

in practice this means:

- + Offering sport in gender-specific groups
- + Recruiting female personnel as trainers, lifeguards, etc.
- + Denying entry to boys and men
- + Ensuring good accessibility
